

Test Report

Sample Information	
Item Description:	Hook & Eye Fittings/Nylon Coated
Item Category:	Nylon coated Hooks & Eyes
Colour:	Basic White
Test Methods:	ISO, AATCC & ASTM

Test Method	Requirement	Conformity
»» COLORFASTNESS TO LAUNDERING: ACCELERATED (AATCC 61 2A)	Colour Change : 4.0 Colour Stain : 3.5	Pass
»» COLOURFASTNESS TO PERSPIRATION (ISO 105-E04)	Colour Change : 4.0 Colour Stain : 3.5	Pass
»» COLOURFASTNESS TO WATER (ISO 105 E01)	Colour Change : 4.0 Colour Stain : 3.5	Pass
»» RESISTANCE TO PHENOLIC YELLOWING (ISO105-X18)	Colour Change : 4.0	Pass
»» FREE NICKEL CONTENT(QUALITATIVE)	Can not be present	Pass
»» RESISTANCE TO RUST & CORROSION	No corrosion present (Grade 10)	Pass
»» MANUFACTURING QUALITY (VISUAL)	No sharp points or edges	Pass
»» APPEARANCE AFTER REPEATED LAUNDERING	Visual rating - evaluation after 1x, 5x washed	Pass

Samples for testing has been selected according to the Random Sampling Technique where each sample has an equal probability of being chosen. There is a possibility that the sample does not represent the population as a whole due to any random variation (Sampling Error). All tests are performed only by certified laboratory technicians.
